

FRIDA FRIIS

ABOUT ME

I am a versatile **Graphic Designer** and **Illustrator**, who enjoys transforming ideas into **strong visual solutions**. My skills span everything from storytelling and illustration to branding and visual identity across both **digital** and **printed media**.

I value **communication**, **authenticity** and **creativity**, and approach tasks with dedication and attention to detail.

When I'm not designing I spend my time building miniatures and fantasy storylines with my partner and our four cats.

EXPERIENCE & SKILLS

My skills span widely across static and dynamic media, including photo and video editing, interface design (UI), motion graphics and printed material.

I am proficient in Adobe Creative Cloud, Figma, and CapCut, and I also have experience using Blender and generative AI as **creative design tools**.

I have experience **collaborating** with LiveNation, Heartland Festival, Suset Esbjerg, Midgaard Event & Escape Room, and private clients.

Alongside my professional work, I continue to develop my **creative skills** through **personal projects** in character design, animation, creative writing, and video- and music production.
